PUEBLO MEMORIAL AIRPORT RECOMMENDS ARRIVAL TIME AT AIRPORT

Pueblo, Colorado (January 10, 2017) – The Pueblo Memorial Airport recommends that all passengers arrive early for departing flights. Passengers needing to check-in at the airport, or check a bag, should arrive 60 to 90 minutes prior to departure. If a passenger checks-in online and does not need to check a bag, arriving 60 minutes prior to departure is recommended. These arrival times to the airport will ensure passengers make their flights.

“It is always better to give yourself a little extra time when traveling,” says Ian Turner, Director of Aviation, “While we are located a conveniently short drive for Pueblo residents and offer an uncrowded airport experience, security and check-in processes do take some time.”

United Express offers two flights a day on weekdays and one flight a day on weekends. Service from Pueblo goes to Denver International Airport and is a short connection to 370 destinations around the globe. Air service is provided by SkyWest Airlines on comfortable 50-passenger regional jets.
